

< Before using Edge Processing.

The timbers to the left exhibit common problems inherent with large timbers, such as:

- Mill chain stains
- Banding marks
- Oxidation
- Rail rub
- Water stains

*Also available in untreated and treated pine timbers!*

After processing >

Edge Timbers will provide the contractor and end user with visibly improved material which will:

- Eliminate returns
- Increase customer satisfaction
- Eliminate inventory shrinkage
- 100% useable
